Azul infinito

*Infinite blue*

Foto: PILAR OTÍ

An aerial photograph of a wetland landscape, likely the Marismas de Santoña. The image shows a complex network of winding, narrow water channels and meanders that cut through dense, green vegetation. The water appears dark brown or black, contrasting with the vibrant green of the plants. The overall pattern is organic and intricate, resembling a map of waterways. The lighting is bright, casting shadows that emphasize the depth of the channels and the texture of the vegetation.

La piel del agua *The water's skin*
